

Industrial Dust Collector

SF-150 / 200

This series of industrial dust collector from HOLYTEK provides high suction volume and a greater fan size in a compact design. This high-performance system provides energy efficient dust removal for a range of industries, for particle sizes as low as 5 microns.

These units are modular designed for ease of setup and maintenance. The filter and collection bags are durable and lightweight. These machines are an economical solution for operations with high dust removal requirements, and guarantee a healthy, environmentally-friendly workplace.

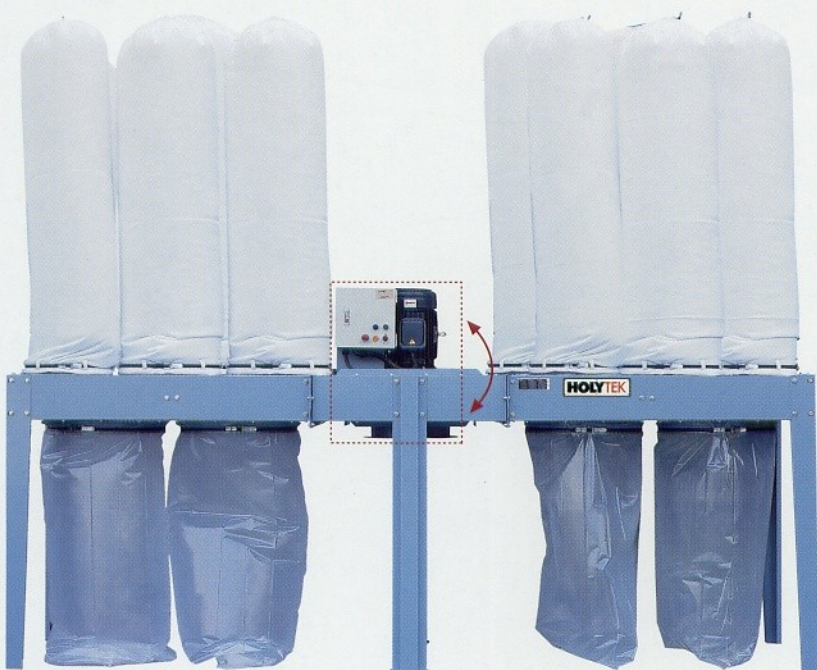

HOLYTEK

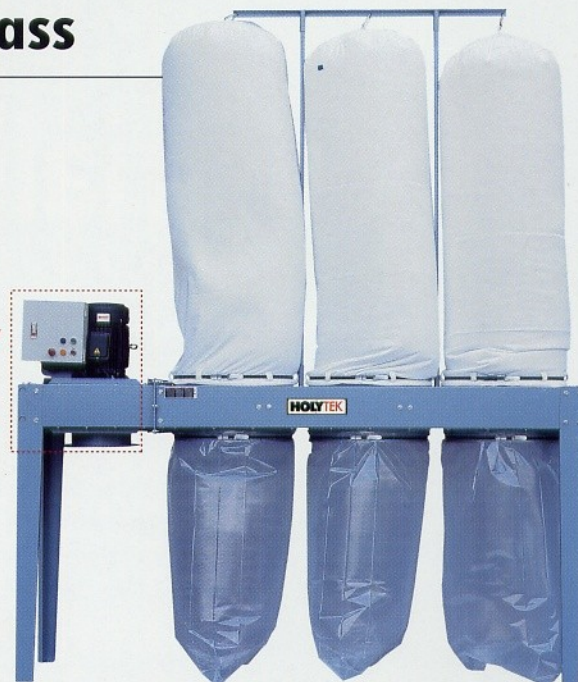

Larger Fans and Higher Suction Volume than Other Machines in Their Class

Increasing environmental awareness and stricter rules governing employee safety have created a need for dust collectors with greater capacity in both suction volume and velocity. These systems designed and engineered for long-term, high-capacity operation in a range of industries.

Motor can swivel 180°

SF-150 / 200

SF-75 / 100

Features:

- Large bag capacity, compact machine design
- Filter bag mesh of 5 microns
- Fan blade sizes from 12-1/2" - 24"
- Motor size up to 20 HP
